The Easter Egg Hunt!

The teacher set up a class Easter Egg hunt and hid 51 Easter eggs. Students found 24 Easter eggs. How many are left to find? Using pictures, words, numbers and/or symbols, show how you figured it out.

$51 - 24 = 27$

$20 + 20 = 40$ because $4 + 7 = 11$

$24 + 27 = 51$

27 eggs are left.
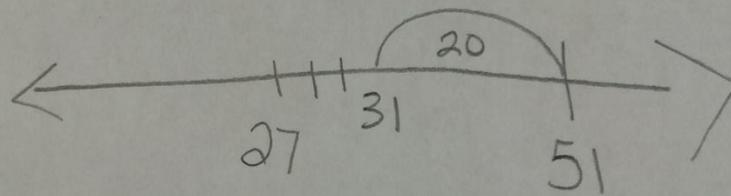

The Easter Egg Hunt!

The teacher set up a class Easter Egg hunt and hid 51 Easter eggs. Students found 24 Easter eggs. How many are left to find?   Using pictures, words, numbers and/or symbols, show how you figured it out.

51 - 24 = 27

27 Easter Eggs

I counted back from fiftyone to twenty seven on the number line.

Brain Peek:
When looking at my paper, you can easily see
- ☐ My answer.
- ☐ How I figured it out.
