

Sharing Sweettarts!

I have 136 Sweettarts to put in 6 birthday party goody bags. How many Sweettarts will go in each bag?

$$136 \div 6 =$$
$$\begin{array}{r} 16 \\ \times 6 \\ \hline 36 \\ 60 \\ \hline 96 \end{array}$$

100 36
↓ ↓
6 × 6 = 36
- 6
16 * 6 = 22

$$136 \div 6 = 22 \text{ (40)}$$

There should be 22 in each bag.

Brain Peek:

When looking at my paper, you can easily see

- My answer.
- How I figured it out.
