|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------|
|  42 |  53 |  64 |  75 |
|  54 |  63 |  72 |  81 |
|  67 |  76 |  85 |  94 |
| Instructions : Joue à tour de rôle avec un partenaire. Choisis une carte et fais une addition pour trouver la somme. Mets un cube sur la somme. S'il y a déjà le cube d'un autre joueur, remplace-le par le tien. Si l'un de tes cubes se trouve déjà sur ce nombre, empile un deuxième cube dessus pour « bloquer » cet emplacement. Le joueur qui utilise tous ses cubes en premier gagne ! Si vous n'avez plus de cartes, remélangez-les. | | | Matériel : Cartes d'addition Dix cubes d'une couleur Dix cubes d'une autre couleur |
