

## Survey Participation Guide

# Participating in the Provincial Curriculum Development Survey

The Provincial Curriculum Development Survey provides opportunity for all Albertans to share their views about the strengths and gaps in our current curriculum.

This guide is designed for use by any Albertan who wishes to partake of the opportunity to provide feedback on existing provincial curriculum through the Provincial Curriculum Development Survey.

Use this guide after viewing the **Provincial Curriculum Development Stakeholder Engagement** video clip: [ADD LINK TO ARCHIVED WEBINAR](#)

### Why Participation Matters

These are exciting times in Alberta as we move forward in the development of new curriculum that will help to prepare our students for their tomorrows. Curriculum is foundational to their futures and to the future of our province. The broad based engagement strategy planned by Alberta Education to support curriculum development is an opportunity for the many voices of stakeholder groups across the province to provide valued input into the development process.

### How Can I Participate?

1. Watch the **Provincial Curriculum Development Stakeholder Engagement** video to become familiar with the curriculum development process that will unfold in our province. ([Video Link](#))
2. Provide feedback on the development of new curriculum through an online survey.
3. In Part B of the survey, you can choose to give your feedback about specific grade levels and subject areas. Think about whether you'd like to give you feedback about Elementary, Jr High, or High School curriculum. Also consider which subjects you want to speak to through the survey. Use the Pre-Survey Questions on this page to help you reflect upon the feedback you might like to provide.
4. Use the survey link provided to access the online survey. A reminder that you will need to complete all of Part A of the survey before moving on to Part B.

### Pre-Survey Questions:

Think about the subjects and grade levels for which you would like to give feedback. With these choices in mind, capture your reflections to the following:

- I like . . .
- I wonder . . .
- I suggest . . .

Write your thoughts down on paper, so that you might enrich the quality of your survey responses.
