Guides to Implementation

Guides to Implementation

What is a guide to implementation?

A guide to implementation will assist teachers with:

- ☐ Developing an understanding of the program of studies
- ☐ Planning for instruction and assessment that supports student achievement of learning outcomes
- ☐ Monitoring students' progress in achieving the learning outcomes
- ☐ Planning to meet the needs of diverse learners
- ☐ Selecting learning resources that support their own professional development
- ☐ Planning to use technology in the delivery of the new program

Integrate for Efficiency and Motivation

In the time allotted for each grade level of the program, it is impossible to complete an activity and assessment for each specific outcome as shown in the samples provided in this chapter. Teachers usually plan to cover several outcomes in each lesson. As teachers plan their units and lessons, they are encouraged to integrate outcomes from all seven general outcomes. Such integration motivates students to become active partners in learning and to take personal responsibility for their own learning.

Reading the Grade Level Samples

Samples of teaching and learning activities follow to help illustrate the intent of the specific outcome.

SAMPLE TEACHING AND LEARNING ACTIVITIES

Prior to beginning a new unit of study, lead the students in creating a class KWL chart. This chart is added to as students proceed through their inquiry of the topic using a variety of texts.

Specific outcome from
the program of studies

General Outcome **3**

Students will listen, speak, read, write, view and represent in Spanish to manage ideas and information.

3.3 Organize,
Record and
Assess

GRADE

Specific
Outcome

Organize Information

Students will be able to:

3.3.1 organize and explain information and ideas, using a variety of strategies, such as clustering, categorizing and sequencing.

SAMPLE TEACHING AND LEARNING ACTIVITY

Have the students use a variety of graphic organizers to organize the information they gathered to answer inquiry or research questions, such as:

Venn Diagram

Sequence Circle

Mind Map

Teaching and learning activity
that aligns with the outcome

Have the students watch and listen as you model how to use a variety of graphic organizers, and determine the type of organizer that would be most appropriate.

SAMPLE ASSESSMENT STRATEGY

Focus for Assessment

corresponding teaching learning
activity, and assessment strategy

Do the students:

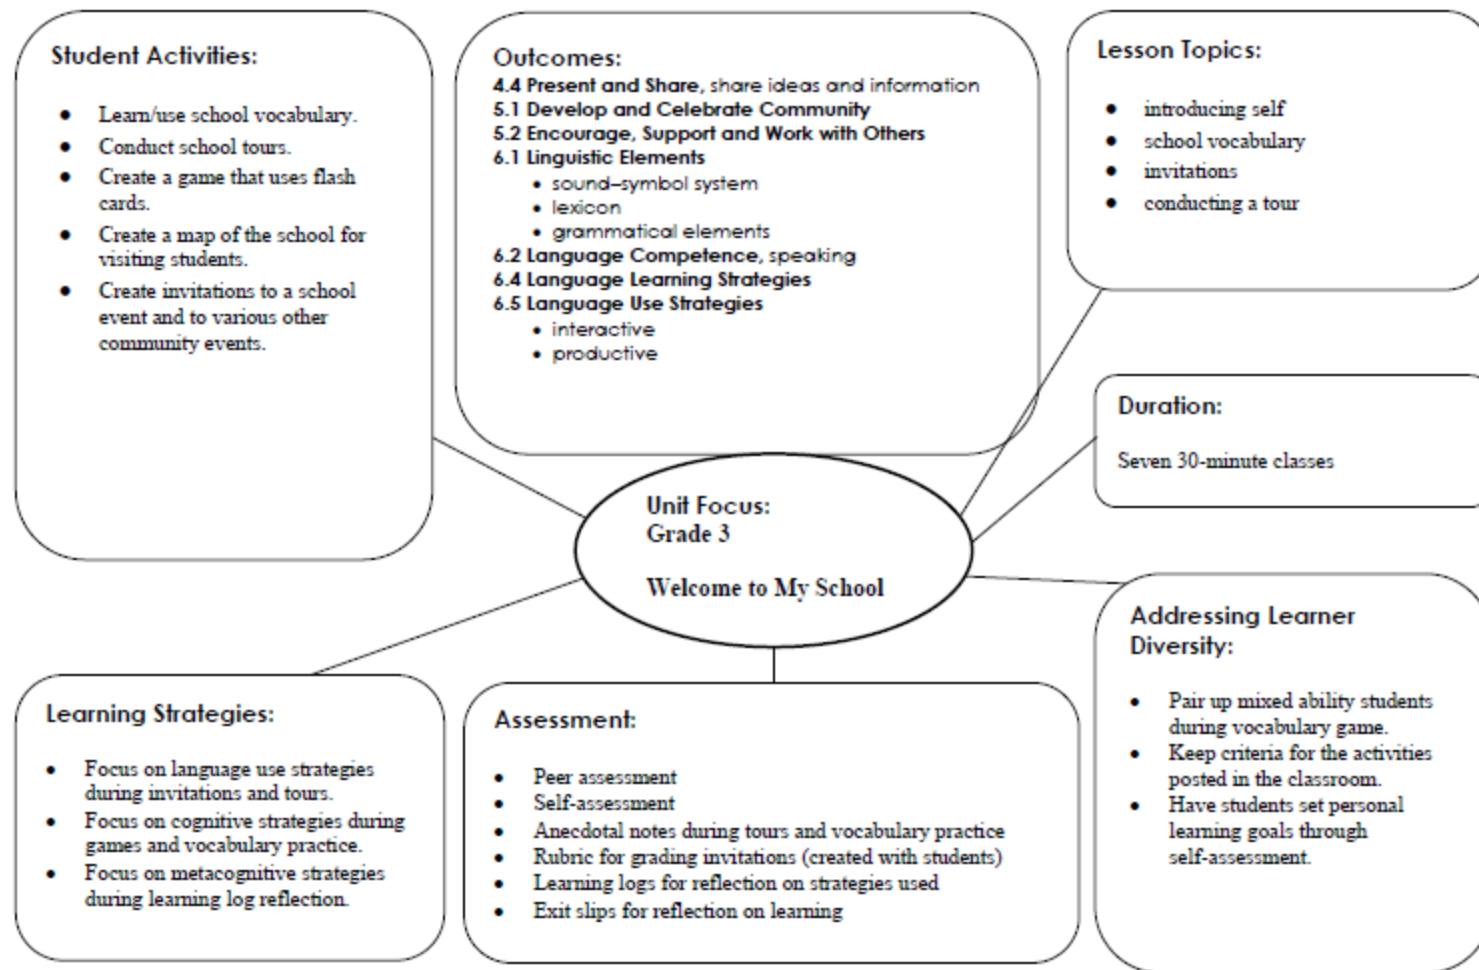

- organize and explain information and ideas using a variety of strategies, such as clustering, categorizing and sequencing?

Observation Checklist

Create an outcome-based checklist and share it with students before they use a variety of graphic organizers to organize gathered information. Use the checklist to assess if students are able to organize and explain information and ideas, using a variety of strategies, such as clustering, categorizing and sequencing (see sample blackline master in Appendix E: Observation Checklist).

Why Alberta Education Authorizes Resources

- Guarantees fidelity to the Program of Studies – curriculum alignment
- Ensures that the reading and content level is suitable for the intended learner
- Checks that the resource is using a good model of the target language (i.e.. No Spanglish)
- Recognizing and Promoting Respect (RD&PR) analysis.

Resource reviews are a collaborative process

- Curriculum Branch of Alberta Education administer the resource review and approval process
- Many other branches support our work i.e. the Learning Resource Centre
- External partners include publishers, distributors and other media producers and most importantly School Authorities and their teachers who participate in the resource reviews and analysis.

Annotation:

This resource consists of a teacher guide, a collection of readers and a set of six audiocassettes, and provides a collection of short stories, most of them nonfiction. It is planned to provide for the application of phonics skills in context, using vocabulary that students find familiar and use frequently in their environment. *Colección azul* presents diphthongs and syllables (i.e., ce/ci, ge/gi, güe/güi, gue/gui, fl/fr, cl/cr, tr, bl/br, pl/pr, gl/gr and dr). The teacher edition provides practice in a variety of formats, appealing to students. These are previewing activities, guided readings incorporating a comprehension check, extending the learning experience with independent writing, and all are initiated with a discussion. It also suggests homework activities to involve the family in the development of children's literacy.

Annotation: This resource is composed of a set of student books (a workbook, an activity book and a mask book) and a set of teacher's resources (a teacher's guide, a CD-ROM set, assessment blackline masters, a poster book, a big book, thematically organized picture cards, and a universal access handbook). The student books include oral, reading and listening activities, and games presented in a comic-strip format that allows students to read at their age level with minimal teacher support. A picture dictionary is also included. The student workbook focuses on written activities to reinforce vocabulary and language concepts in a variety of ways; e.g., matching, sentence writing, sequencing, charts. The teacher's guide is composed of 15 units, each with six lessons that incorporate the four-step lesson plan: explore, teach, apply and close. Each lesson is easy to follow and contains clearly stated objectives, cooperative tasks, role-playing and physical language activities. The lessons also include reading, oral and listening activities to reinforce vocabulary and language concepts. The teacher's guide explains when to use the components and provides sample questions and activities. The assessment blackline masters include a written assessment for each unit. Student directions are simple and easy to follow. Each unit assessment features a variety of question-and-answer activities to test grammatical, linguistic and vocabulary elements in the areas of speaking, listening comprehension, reading and writing. The CD-ROM set is an integral component of the resource. It provides listening activities designed to be used in conjunction with the student books. The CD-ROM content page clearly indicates the page number associated with the track number. The voices on the CD-ROM offer a variety of accents and speak at an appropriate speed. The CD-ROM also includes songs, poems and listening activities. The picture cards are large and colourful, with the descriptive word printed on the opposite side of the card. Topics include the house, clothing, physical characteristics, parts of the body, feelings, preferences, family relationships, daily activities, animals, places in the community and professions. The poster book includes colourful pictures and photographs that are current and depict real-life activities and objects. The poster book is primarily used for oral development.
